

Jarren Bess

Web Developer · MEAN Stack

BessJarren@yahoo.com · 423-384-0940 · Tennessee

github.com/jbb-codes · jbb-codes.github.io/portfolio

SUMMARY

Motivated and self-driven web developer with a solid academic foundation in computer programming and hands-on experience building full-stack applications. Pursuing a Bachelor's degree in Web Development with a focus on the MEAN stack. Passionate about writing clean, functional software and continuously growing through personal projects and coursework.

EDUCATION

Bachelor of Science in Computer Science — Web Development Concentration

Bellevue University · In Progress

- Focused on MEAN Stack development: MongoDB, ExpressJS, Angular, NodeJS

Associate of Applied Science in Computer Programming

Northeast State Technical Community College · Completed

PROJECTS

Paper to Jupyter Notebook Converter

github.com/jbb-codes/Modern-Software-Developer-PRD

- Built an application that converts academic papers into structured Jupyter Notebooks, enabling developers and researchers to engage with paper content in an interactive coding environment.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript
Frameworks & Libraries	Angular, ExpressJS, NodeJS
Databases	MongoDB
Tools & Platforms	Git, GitHub
